Chocolate & Pecan Tart

Lemon Meringue

Blueberry Cheesecake

English Breakfast

Full-bodied Assam's picked during the summer months go perfectly with the fresh taste of high quality African teas. Our next stop is the beautiful Sri Lankan highlands, for tea leaves that add a real depth of flavour to the blend

Pure Peppermint

Each year we wait for the warmest months to come before we harvest when the leaves are rich in essential oils. It's what makes this infusion taste so minty and invigorating. For centuries peppermint has been used to aid digestion, making it perfect just after a meal. Made with all-natural ingredients.

Lemon & Ginger

Revive your senses with real pieces of warm, spicy ginger blended with the fresh, zesty taste of lemons. It's perfect after a meal, as ginger has traditionally been used to aid digestion. Made with all-natural ingredients

Camomile

Like the centre of these pretty daisy-like flowers, this is a golden infusion which is slightly sweet and floral. A sea of white and yellow flowers dance under a brilliant blue sky. We harvest our camomile during the warm summer months, selecting the pollen heads, as they're the sweetest part.

The Earl

Our classic Earl Grey. A delicate tea with a delicious twist of citrusy bergamot. We carefully select a tea that is light, delicate and refreshing. It blends perfectly with the unique citrusy bergamot.

Darjeeling

Darjeeling in north east India isn't easy to get to. Even the famous antique train has to wind its way carefully through valleys and around mountains to get there. The combination of first & second flush teas in this blend gives a beautiful, unique & delicate flavour.

Cranberry & Raspberry

This blend brings you the best of both delicious fruits: the tart sweetness of cranberries, balanced with the gentle tang of raspberries and a touch of fragrant Elderflower. The result is a delightfully lively infusion, bursting with the taste of summer.

Simply Green Tea

Gentle sencha steaming and pan firing creates this refreshing, earthy blend which retains its natural, distinctive flavour. Springtime signals the first flush of our pure green tea. As dawn breaks and the dewy mist hangs in the air, Gentle sencha steaming and pan firing brings a light, toasty flavour to the tea, for a cleaner, more refreshing taste
